Hi Randy,

Sorry, today (Wednesday) was a zoo day here. I am available tomorrow with the exception of 9:45 thru 11:30 eastern daylight time.

Hope we can find a time to talk

Steve

Subject: Call?

Hi Steve,

Would you have a few minutes this week to catch up on USG and their use of CTDMPlus? Unfortunately, this project gets pushed down the list when other things pop up but I want to at least get you up to speed and clarify a question or two.

I'm pretty open tomorrow and Thursday, except for mid-mornings. If that doesn't work, next week is fine, too.

Thanks, Randy
